Lagertha

Technical Specification

WIDTH	4m
COMPOSITION	4ply | 100% Pure New Zealand Wool
PILE HEIGHT	11.5mm
TOTAL HEIGHT	13.5mm
PILE WEIGHT	2050 grams | m²
TOTAL WEIGHT	3350 grams | m²
LIGHT FASTNESS	4
THERMAL VALUE	1.75 tog
REACTION TO FIRE	CFL-s1
SOUND IMPACT ISOLATION	25 Decibels
DOMESTIC INSTALL METHOD	Double stick with quality underlay
COMMERCIAL INSTALL	Double stick with quality underlay

General Information

Installation - Millers 1893 carpeting is covered by *BS 5325:2021 Installation of textile floorcoverings - code of practice*. Installers should familiarise themselves with the requirements of this standard.

Please see our “Fitting Guide” for the main details from *BS 5255:2021.*

Maintainance - To maintain your carpet’s appearance it is recommended that it is vacuumed at least 3 times a week to remove particles of dirt and dust which cause abrasion and premature wear. Loop Pile carpets must not use a motorised brush whereas a cut pile will benefit greatly from this. A SEBO FELIX PET is perfect for both as you can turn the brush on or off.

Cleaning - For general spot cleaning Millers 1893 recommend JAMES B.V. Their products are excellent for carpets and upholstery. We recommend a JAMES STARTERSET with every sale of Millers 1893 carpet.

Professional cleaning is recommended for larger areas.

Matching - Any sample will not be from the same production batch as current stock and therefore should not be used as a 100% match.

Matching between widths cannot be Guaranteed.
